PolySoft Recreational Tiles

## PolySoft Interlocking Tiles

These new tiles are ideal for gyms, pathways, community areas, aged care facilities and a host of other applications. At 15mm thick and comfortable underfoot, these tiles come with an effective and simple interlocking system, easy and quick to install and of course great colour combinations available only from PolySoft.

### Benefits Included:

- ▶ Attractive appearance
- ▶ Low maintenance
- ▶ Fast installation
- ▶ High slip resistance
- ▶ Soft underfoot
- ▶ Resilient and hardwearing
- ▶ Multi colours and combination
- ▶ Minimum facility down time
- ▶ Easy to repair
- ▶ High quality recycled industrial rubber

### Typical Applications for Indoors & Outdoors

- ▶ Playground
- ▶ Pathways
- ▶ Community area
- ▶ Aged care facilities
- ▶ Roof top
- ▶ Gym

### PolySoft Recreational Tiles

A unique combination of high quality recycled industrial rubber compound topped with PolySoft; world leader in children's playground surfacing. Ranging from 30mm to 50mm thick depending on fall height requirements, these tiles are butted together to form an attractive and functional finish, easy and quick to install and of course great colour combinations available only from PolySoft.
